Re: Customer Care Analyst, Alberta Energy Regulator

Dear Alberta Energy Regulator Hiring Team,

I am applying for the Customer Care Analyst role in the Customer Contact Centre. I enjoy being the single point of contact who helps people find the right answer, and I have done that in technical support, product support and public-facing safety roles.

I hold a First Class Honours degree in Communication Studies and have years of experience explaining technical systems and processes clearly. At iBurst I handled a high volume of customer inquiries through a case management system; in my current role at Alberta Health Services sites I help members of the public calmly, often in stressful moments. I learn new regulatory and technical subject matter quickly.

I am legally entitled to work in Canada, live in Calgary, and can start with two weeks' notice. I would welcome the chance to talk about how I can help your team. My portfolio is at citizensadi.com.

Sincerely,

Sadisu Hassan
