Re: Product Support Specialist, Membee, Beacon Holdings

Dear Beacon Holdings Hiring Team,

I am applying for the Product Support Specialist role on the Membee team. I have owned web and mobile products from scope through release, and I have worked the support side for years, so I understand both what a customer is trying to do and what it takes for the product team to fix it.

At Paid Global I was product owner and operations lead for a marketplace app, working with the product team in Canada and developers in Pakistan, and onboarding users in person in Rwanda. At Hexagram I ran user acceptance testing across an admin panel, web portal and mobile apps. That mix of user onboarding, testing, and clear communication with engineering is what I would bring to Membee's customers.

I am legally entitled to work in Canada, live in Calgary, and can start with two weeks' notice. I would welcome the chance to talk about how I can help your team. My portfolio is at citizensadi.com.

Sincerely,

Sadisu Hassan
