Re: NOC Analyst, CDW

Dear CDW Hiring Team,

I am applying for the NOC Analyst role in Calgary. Network operations is where my experience started: I supervised optical fibre network projects at Tech Centrum, responded to network faults at any hour, and provided level 2/3 support at an internet service provider.

I completed full CCNA training at a Cisco Networking Academy and hold CompTIA A+ and Google IT Support certifications. I am used to monitoring, triaging and escalating incidents calmly, and to documenting them clearly. I currently work 12-hour shifts on a rotation, so shift work is familiar.

I am legally entitled to work in Canada, live in Calgary, and can start with two weeks' notice. I would welcome the chance to talk about how I can help your team. My portfolio is at citizensadi.com.

Sincerely,

Sadisu Hassan
