Re: Junior Customer Success Representative, Compugen

Dear Compugen Hiring Team,

I am applying for the Junior Customer Success Representative role. Your posting puts customer service first, listening, empathizing and explaining solutions in non-technical language, and that is where I am strongest.

I have a First Class Honours degree in Communication Studies and years of technical support behind it, from level 2/3 support at an internet service provider to onboarding users of a mobile app in person in Rwanda. As a product owner I followed issues through to resolution and checked back with users. I would bring that same care to every Compugen customer interaction.

I am legally entitled to work in Canada, live in Calgary, and can start with two weeks' notice. I would welcome the chance to talk about how I can help your team. My portfolio is at citizensadi.com.

Sincerely,

Sadisu Hassan
