Re: IT Support Associate, Compugen

Dear Compugen Hiring Team,

I am applying for the IT Support Associate role in Calgary. I have worked in tier 1 and 2 support at an internet service provider and as an in-house IT systems administrator, and I am CompTIA A+ and Google IT Support certified.

Your posting asks for Microsoft 365, Windows, Active Directory and ticketing experience along with customer-facing skills. At Hexagram I administered the company's SaaS platforms and user accounts and supported staff hardware and software; at iBurst I handled level 2/3 cases through a ticketing system. I explain fixes in plain language and follow through until the user is satisfied.

I am legally entitled to work in Canada, live in Calgary, and can start with two weeks' notice. I would welcome the chance to talk about how I can help your team. My portfolio is at citizensadi.com.

Sincerely,

Sadisu Hassan
