Re: Customer Support Specialist, Haystack

Dear Haystack Hiring Team,

I am applying for the Customer Support Specialist role. I like live, front-facing problem solving and building trust with customers, and I learn complex products quickly.

As product owner at Paid Global and Hexagram I learned products inside out, ran user acceptance testing and trained users directly, including in person in Rwanda. I have handled support cases by phone, video and on site, and I welcome feedback and changing workflows. My portfolio, citizensadi.com, shows the web work I do as well.

I am legally entitled to work in Canada, live in Calgary, and can start with two weeks' notice. I would welcome the chance to talk about how I can help your team. My portfolio is at citizensadi.com.

Sincerely,

Sadisu Hassan
