Re: IT Support Specialist, LodgeLink

Dear LodgeLink Hiring Team,

I am applying for the IT Support Specialist role in Calgary. As IT systems administrator at Hexagram I was the person staff came to for hardware, software, network and meeting-room problems, and I managed the company's SaaS platforms day to day.

Your posting covers Microsoft and collaboration tool support, asset lifecycle, meeting room technology, and onboarding and offboarding. At Hexagram I set up the office network and network storage, built the remote conferencing setup used with stakeholders, prepared equipment and accounts for staff, and worked with outside IT partners. I hold CompTIA A+ and Google IT Support certifications and would be a reliable on-site liaison with your global IT team.

I am legally entitled to work in Canada, live in Calgary, and can start with two weeks' notice. I would welcome the chance to talk about how I can help your team. My portfolio is at citizensadi.com.

Sincerely,

Sadisu Hassan
