Re: IT Specialist II, Modine Manufacturing

Dear Modine Manufacturing Hiring Team,

I am applying for the IT Specialist II role in Calgary. My IT experience spans end-user support, systems administration and networking, and I am comfortable owning a site's technology while working with remote and regional teams.

At Hexagram I was responsible for the office's IT: SaaS platforms, user accounts, network, storage and conferencing. I completed full CCNA training and worked as a network engineer on fibre builds. I am CompTIA A+ and Google IT Support certified and used to working with global development partners.

I am legally entitled to work in Canada, live in Calgary, and can start with two weeks' notice. I would welcome the chance to talk about how I can help your team. My portfolio is at citizensadi.com.

Sincerely,

Sadisu Hassan
