Re: IT Applications Support Specialist, HSE & Transportation Systems, Parkland Corporation

Dear Parkland Corporation Hiring Team,

I am applying for the IT Applications Support Specialist role supporting HSE and Transportation systems. I have supported business applications as both a product owner and an IT administrator, and I communicate well with frontline users and specialists alike.

As product owner at Hexagram and Paid Global I investigated user-reported issues, ran user acceptance testing, and worked with developers to resolve them. I have administered SaaS platforms, admin panels and integrations, and I currently work in a safety role in Alberta hospitals, so I understand why HSE systems need to work reliably.

I am legally entitled to work in Canada, live in Calgary, and can start with two weeks' notice. I would welcome the chance to talk about how I can help your team. My portfolio is at citizensadi.com.

Sincerely,

Sadisu Hassan
