Re: Customer Support Specialist, Welbi

Dear Welbi Hiring Team,

I am applying for the Customer Support Specialist role. Supporting software used in seniors' care communities is meaningful to me; I currently work in Alberta Health Services hospitals and see how much staff rely on tools that simply work.

Your posting asks for SaaS support experience, clear communication, strong troubleshooting and cross-functional collaboration. As product owner at Paid Global and Hexagram I investigated user issues, found root causes and worked with product and engineering teams in several countries to fix them. I am organized, follow through, and explain things clearly to people with any level of technical experience.

I am legally entitled to work in Canada, live in Calgary, and can start with two weeks' notice. I would welcome the chance to talk about how I can help your team. My portfolio is at citizensadi.com.

Sincerely,

Sadisu Hassan
