Re: Junior Support I.T., Wood Automotive Group

Dear Wood Automotive Group Hiring Team,

I am applying for the Junior Support I.T. role. I like hands-on IT work across hardware, imaging, Windows and networking, and I am happy to help with inventory and ordering as part of keeping a business running.

I hold a diploma in computer hardware repair and networking, CompTIA A+ and Google IT Support certifications, and full CCNA training. At Hexagram I supported staff hardware and software and set up the office network and storage; earlier I built a 50-computer production network. I would be a dependable help desk for your team and support for your I.T. Operations Manager.

I am legally entitled to work in Canada, live in Calgary, and can start with two weeks' notice. I would welcome the chance to talk about how I can help your team. My portfolio is at citizensadi.com.

Sincerely,

Sadisu Hassan
