Re: Technical Support IT (6-month contract), Workleap

Dear Workleap Hiring Team,

I am applying for the six-month Technical Support IT contract. I enjoy making internal support fast and human, and I like improving the tools and documentation behind it.

At Hexagram I managed the company's SaaS platforms and office IT, set up user accounts and access, and supported staff on hardware and software. As a product owner I wrote clear documentation and looked for repetitive work to simplify. I am CompTIA A+ and Google IT Support certified and comfortable working with remote teams across time zones.

I am legally entitled to work in Canada, live in Calgary, and can start with two weeks' notice. I would welcome the chance to talk about how I can help your team. My portfolio is at citizensadi.com.

Sincerely,

Sadisu Hassan
