Re: Customer Support Specialist, Xylem

Dear Xylem Hiring Team,

I am applying for the Customer Support Specialist role based in Calgary. I have spent years in customer-facing technical and product support, and I am organized and detail-oriented when volumes are high.

At iBurst I handled a steady stream of customer cases and tracked each through to resolution; at Paid Global I coordinated between users, operations and engineering teams in several countries. I am proficient in Microsoft Office and comfortable learning new systems such as Salesforce. My communications degree helps me keep customers informed clearly and professionally.

I am legally entitled to work in Canada, live in Calgary, and can start with two weeks' notice. I would welcome the chance to talk about how I can help your team. My portfolio is at citizensadi.com.

Sincerely,

Sadisu Hassan
