SADISU HASSAN

Product Support • Customer & Technical Support • Software Product Ownership

Calgary, AB | (368) 996-9034 | hassansadisu@gmail.com | citizensadi.com | linkedin.com/in/sadisu-hassan-023254120

SUMMARY

Product support professional who has owned web and mobile products from scope through release and spent years in hands-on technical support before that. Comfortable where users, engineers and the business meet: investigating what users report, reproducing and logging issues, running user acceptance testing, and explaining fixes in plain language. Has worked with product and engineering teams in Canada, Pakistan, Rwanda and Ghana. CompTIA A+ and Google IT Support certified; First Class Honours degree in Communication Studies.

SKILLS

- **Product support:** issue investigation, reproduction and escalation; ticketing and case management; user acceptance testing; release checks; user feedback analysis; knowledge base and user documentation
- **Product ownership:** scope and requirements, feature specifications, design reviews, sprint tracking, cross-functional coordination with remote teams across time zones
- **Technical:** SaaS and web/mobile apps, admin panels and dashboards, Microsoft 365, Windows, networking fundamentals (CCNA training), HTML, CSS, JavaScript, React, Git
- **Communication:** clear written and verbal support, de-escalation, training and onboarding users, stakeholder updates; English, Akan, Samre

EXPERIENCE

App Development Operations Lead
Sep 2023 – Present
Paid Global Ltd.
Remote / Rwanda

- Led operations for a mobile app connecting skilled workers with customers and jobs, acting as product owner from scope through release.
- Worked with the product team in Canada on scope and requirements, and with the development team in Pakistan to deliver them.
- Ran user acceptance testing on each release and explained to the technology team and app users how features met, or missed, user needs.
- Travelled to Rwanda to train and onboard skilled workers on the app and support them in reaching customers.

IT Systems Administrator & Software Product Owner
Dec 2019 – Nov 2023
Hexagram Limited
Accra, Ghana

- Product owner on software projects, including a real estate portal across web, admin panel, iOS and Android: scope, feature specifications, design reviews and sprint-by-sprint development tracking.
- Ran system-wide user acceptance testing before launch, analyzed user feedback to plan iterative updates, and wrote documentation for partners and internal teams.
- Managed company SaaS platforms and office IT systems, and set up the office network, network storage and remote conferencing.

Network / OSP Engineer & Project Supervisor
Aug 2015 – Dec 2019
Tech Centrum Limited
Accra, Ghana

- Planned, implemented and supervised optical fibre network projects, including metro fibre builds, and responded to network faults at any hour.
- Managed hosted web and email domains and supported clients on cPanel; trained on optical network equipment with Tejas Networks, Bangalore.

Technical Support Consultant
Mar 2012 – Sep 2015
iBurst Africa Ghana Limited (ISP)
Accra, Ghana

- Provided level 2/3 support by phone and on site, diagnosing connectivity and service issues and logging every case in the ticketing system.

- Installed customer premises equipment, administered LANs for last-mile deployments, and helped build the company's metro fibre network.
- Reduced complaints through fast, clear responses and became a key member of the support team.

Healthcare Security Officer **Oct 2025 – Present**
Paladin Security Group, Alberta Health Services sites *Calgary, AB*

- Frontline point of contact for patients, visitors and staff at Rockyview General, Alberta Children's, South Health Campus and Foothills; de-escalation and clear incident reporting.

Information Technology Officer **Jan 2011 – Jan 2012**
Tech-Aide Limited (UNICEF-linked NGO) *Winneba, Ghana*

- Managed LAN/WAN and the organization's community internet service, including wireless CPE installs and computer repairs.

CERTIFICATIONS

- CompTIA A+ • Google IT Support Professional Certificate (2023) • CCNA training, full curriculum, Cisco Networking Academy
- Optical Fibre Network Technologies, Tejas Networks (2015) • Standard First Aid, CPR & AED • Alberta Class 4 Driver's Licence

EDUCATION

- **BA, Communication Studies (Journalism), First Class Honours**, Pentecost University, Ghana (2018)
- **Diploma, Computer Hardware Repair & Networking**, Ghana Technical Institute (2016)
- **Frontend engineering coursework** (HTML, CSS, JavaScript, React, Redux, Git), Codecademy (2023)
